### Your Consent, Your Control

Welcome to [unstablecoins.io](https://unstablecoins.io). In the spirit of transparency and user sovereignty, this Cookie Compliance Policy explains how cookies and similar technologies are deployed across our platform. By accessing our site, you accept the outlined practices unless otherwise modified by your preferences.

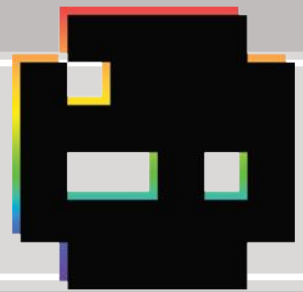

## What Are Cookies?

Cookies are compact packets of data ("code crumbs") stored on your device to streamline your browsing experience. They act as memory nodes, enabling functions such as session continuity, preference retention, and performance optimization.

## Types of Cookies We Use:

- **Strictly Necessary Cookies:** Core infrastructure cookies—no access, no functionality.
- **Performance Cookies:** Monitor interactions to enhance system speed and usability (think transaction smoothness).
- **Preference Cookies:** Save your theme, language, and glitch style preferences.
- **Targeting Cookies:** Minimal use, aimed at personalizing your NFT and token trading experience (if enabled).

# Cookie Policy

UNSTOPPABLE.LABS

## Why Do We Use Cookies?

To keep the machine running smoothly. Our cookies help to:

- **Authenticate Sessions:** Ensuring secure and seamless logins.
- **Optimize Interactions:** Enhance performance for on-chain data visualization.
- **Adapt to You:** Tailor interfaces and minimize the chaos for a personalized experience.
- **Analyze and Improve:** Study anonymized usage patterns to refine our Platform.

## Your Consent

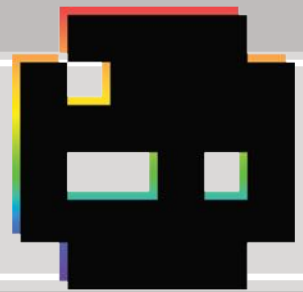

### The Power of Choice

When you first connect, you're greeted by the Cookie Console—our interface for managing your consent. You decide:

- **Accept All Cookies:** Embrace the full experience.
- **Customize Preferences:** Toggle specific cookie categories.
- **Reject Non-Essentials:** Limit to strictly necessary cookies for minimal intrusion.

Your consent is logged via blockchain-compatible hashing for transparency and auditability.

## Manage or Disable Cookies

Cookies aren't permanent residents—they're removable. You can:

1. Adjust your preferences in the Cookie Console.
2. Delete cookies manually via browser settings.
3. Use "Do Not Track" browser options, where supported.

**Note:** Disabling some cookies may limit features like session persistence or NFT metadata rendering.

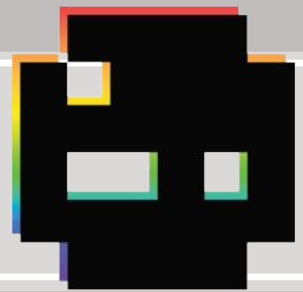

## Third-Party Cookies

Some cookies originate from our trusted partners (e.g., analytics or NFT marketplaces). These parties adhere to strict security standards and privacy guidelines, audited periodically for compliance.

- Analytics Providers: Aggregate stats to enhance user journeys.
- NFT Marketplaces: Streamline trading sessions across platforms.

We never share sensitive data or private keys—only anonymized metrics.

## Cookies in Use

### Strictly Necessary Cookies

**Purpose:** Authentication, security, session management.

**Lifetime:** Session-based or minimal retention.

### Performance Cookies

**Purpose:** Monitor and optimize the Platform's transaction pathways.

**Lifetime:** 30 days, unless cleared earlier.

### Preference Cookies

**Purpose:** Save your UI configurations, like dark mode or meme font selection.

**Lifetime:** 6 months.

### Targeting Cookies (Optional)

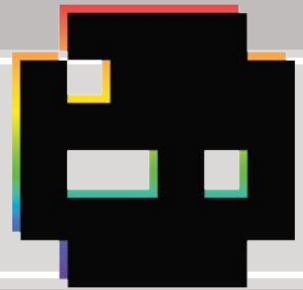

**Purpose:** Curate token recommendations, AI-driven meme trends.

**Lifetime:** User-defined.

## Blockchain, Cookies, and Privacy

In alignment with decentralization, your cookie preferences are anonymized and optionally recorded on-chain for transparency. No personally identifiable information (PII) is included in the blockchain record.
